## What We See

This is what your shift looks like in the Clearcare system for the office. You can see that we can tell whether the shift is one or two parts, and what the service codes for each part are. Usually we try to make the start and end times the same every day, but depending on the number of hours for each client-it may vary

depending on the day.

## What You See

ends. You can tell if the shift is PCS/A+D or HMKR when you click into An example of a progress note has been made for this shift (see back). Clearcare is the same way it should be separated in your progress notes Preparation, Housework, and Transportation). The way it is separated in Homemaker shift if all the tasks are hands off (i.e. Shopping, Meal mobility, personal hygiene, and so forth. You will know it is a more hands on. This may include transferring, bathing, dressing, the shift. You will know it is PCS/A+D because all of the tasks will be when the first part ends/the second part begins, and when the shift that the shift is broken into two parts, and you can see when it begins, This is what you see when you log into the Clearcare App. You can see
